

smacc2/include/smacc2
/smacc_tracing/trace
_provider.hpp

```
graph TD; A["smacc2/include/smacc2  
/smacc_tracing/trace  
_provider.hpp"] --> B["lttng/tracepoint.h"]; A --> C["lttng/tracepoint-event.h"];
```

The diagram illustrates the include relationships for the `smacc2` tracing provider. The top box, `smacc2/include/smacc2/smacc_tracing/trace_provider.hpp`, is the source file. Two blue arrows point from it to the target headers: `lttng/tracepoint.h` on the left and `lttng/tracepoint-event.h` on the right.

lttng/tracepoint.h

lttng/tracepoint-event.h
