The diagram illustrates a call relationship. Two white rectangular boxes on the left represent source functions: 'smacc2::client_behaviors::CbWaitActionServer::onEntry' (top) and 'smacc2::client_behaviors::CbWaitNode::onEntry' (bottom). Two blue arrows originate from these boxes and point to a single grey rectangular box on the right, which represents the target function: 'smacc2::SmaccAsyncClientBehavior::postFailureEvent'.
