

```
boost::statechart::  
event< EvTransitionOnShutdown  
Failure< TSourceObject, TOrthogonal > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvTransitionOnShutdownFailure< TSourceObject, TOrthogonal > >'. The bottom box is gray and contains the text 'cl_lifecycle::EvTransitionOnShutdownFailure< TSourceObject, TOrthogonal >'. A blue arrow with an open triangular head points from the bottom box to the top box, indicating that the bottom class inherits from the top class.

```
cl_lifecycle::EvTransition  
OnShutdownFailure< TSourceObject,  
TOrthogonal >
```
