

sm_dance_bot_warehouse
::radial_motion_states
::StiRadialLoopStart::loopWhile
Condition

```
graph LR; A["sm_dance_bot_warehouse  
::radial_motion_states  
::StiRadialLoopStart::loopWhile  
Condition"] --> B["smacc2::ISmaccState  
::getLogger"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and a black border, containing the text 'sm_dance_bot_warehouse', '::radial_motion_states', and '::StiRadialLoopStart::loopWhile' followed by 'Condition' on a new line. The right box has a white background and a black border, containing the text 'smacc2::ISmaccState' and '::getLogger' on a new line.
