

```
boost::statechart::  
event< EvTransitionUnconfigured  
Shutdown< TSourceObject, TOrthogonal > >
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::' followed by 'event< EvTransitionUnconfigured Shutdown< TSourceObject, TOrthogonal > >' on two lines. The bottom box is gray and contains the text 'cl_lifecyclenode::EvTransition' followed by 'UnconfiguredShutdown< TSourceObject, TOrthogonal >' on two lines. A blue arrow with an open triangular head points from the top of the gray box to the bottom of the white box, indicating that the gray class inherits from the white class.

```
cl_lifecyclenode::EvTransition  
UnconfiguredShutdown< TSourceObject,  
TOrthogonal >
```
