

smacc2::introspection
::processSubState

```
graph LR; A[smacc2::introspection::processSubState] --> B[smacc2::introspection::WalkStatesExecutor::walkStates]
```

A diagram showing a call from the function `processSubState` in the `smacc2::introspection` namespace to the `walkStates` method of the `WalkStatesExecutor` class, also in the `smacc2::introspection` namespace. The call is represented by a blue arrow pointing from the left box to the right box.
