

smacc2/include/smacc2  
/smacc\_signal.hpp

```
graph TD; A["smacc2/include/smacc2  
/smacc_signal.hpp"] --> B["boost/any.hpp"]; A --> C["boost/signals2/signal.hpp"];
```

The diagram illustrates the include relationships for the `smacc2` library. A central box at the top represents the header `smacc2/include/smacc2/smacc_signal.hpp`. Two arrows point downwards from this box to two separate boxes below it. The left box represents `boost/any.hpp` and the right box represents `boost/signals2/signal.hpp`. This indicates that `smacc2` includes both `boost/any` and `boost/signals2` headers.

boost/any.hpp

boost/signals2/signal.hpp
