The diagram illustrates a mapping or inheritance relationship. On the left, there are two white rectangular boxes. The top box contains the text 'cl\_move\_group\_interface::CbMoveKnownState::onEntry'. The bottom box contains the text 'cl\_move\_group\_interface::CbMoveLastTrajectoryInitialState::onEntry'. On the right, there is a gray rectangular box containing the text 'cl\_move\_group\_interface::CbMoveJoints::onEntry'. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both functions on the left are associated with or mapped to the function on the right.
