

cl\_moveit2z::CbMoveKnown  
State::onEntry

```
graph LR; A[cl_moveit2z::CbMoveKnown  
State::onEntry] --> B[cl_moveit2z::CbMoveKnown  
State::loadJointStatesFromFile]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'cl\_moveit2z::CbMoveKnown' on the first line and 'State::onEntry' on the second line. The right box is gray with a black border and contains the text 'cl\_moveit2z::CbMoveKnown' on the first line and 'State::loadJointStatesFromFile' on the second line.
