

smacc2::ISmaccStateMachine  
::mapBehavior

smacc2::ISmaccOrthogonal  
::setGlobalSMData

smacc2::ISmaccStateMachine  
::setGlobalSMData

```
graph LR; A[smacc2::ISmaccStateMachine::mapBehavior] --> C[smacc2::ISmaccStateMachine::setGlobalSMData]; B[smacc2::ISmaccOrthogonal::setGlobalSMData] --> C;
```

The diagram illustrates a dependency or mapping between three functions. On the left, two white rectangular boxes with black borders contain the function signatures. The top box contains 'smacc2::ISmaccStateMachine::mapBehavior' and the bottom box contains 'smacc2::ISmaccOrthogonal::setGlobalSMData'. On the right, a gray rectangular box with a black border contains the target function signature 'smacc2::ISmaccStateMachine::setGlobalSMData'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'mapBehavior' and 'setGlobalSMData' from the left boxes are associated with or mapped to the 'setGlobalSMData' function in the gray box.
