The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint106< TSource, TOrthogonal > >`, is shown in a white box with a black border. It has two empty rectangular compartments below its name. The derived class, `cl_move_base_z::EvWaypoint106< TSource, TOrthogonal >`, is shown in a gray box with a black border. It has a third compartment containing the attribute `+ waypointIndex`. A blue arrow with an open triangular head points from the derived class box to the base class box, indicating that the derived class inherits from the base class.
