

The diagram illustrates the structure of the `smacc2` package. It consists of three nested rectangular boxes. The outermost box is light blue with a dashed black border and contains the text `smacc2` at the top center. Inside this box is a second, solid light blue box with a solid black border. This second box contains two elements: a smaller solid blue box with a solid black border on the left, which contains the text `smacc2`, and the text `include` on the right.
