

cl\_move\_group\_interface  
::CbWaitJointState::onEntry

```
graph LR; A[cl_move_group_interface::CbWaitJointState::onEntry] --> B[cl_move_group_interface::CbWaitJointState::onMessageReceived];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'cl\_move\_group\_interface' and '::CbWaitJointState::onEntry'. The right box is gray with a black border and contains the text 'cl\_move\_group\_interface', '::CbWaitJointState::onMessage', and 'Received' on three lines. A blue arrow points from the right side of the left box to the left side of the right box.
