

```
sm_dance_bot_strikes  
_back::StEventCountDown  
::staticConfigure
```

A diagram showing a call from a function to a state object. On the left, a gray box contains the text 'sm\_dance\_bot\_strikes \_back::StEventCountDown ::staticConfigure'. A blue arrow points from this box to a white box on the right. The white box contains the text 'smacc2::SmaccState < StEventCountDown, MsDanceBotRunMode > ::static\_createStateReactor'.

```
smacc2::SmaccState  
< StEventCountDown,  
MsDanceBotRunMode >  
::static_createStateReactor
```
