```

The diagram illustrates a control flow where two separate callback functions, `cl_nav2z::CbRotateLookAt::onEntry` and `cl_nav2z::CbWaitPose::onEntry`, both trigger the same target function, `cl_nav2z::Pose::waitTransform Update`. The target function is highlighted with a gray background, while the source functions have white backgrounds. Blue arrows indicate the direction of the calls from the left boxes to the right box.
