The diagram illustrates an inheritance relationship between two event types. The base class, `boost::statechart::event< EvGoalWaypointReached< AsyncCB, Orthogonal > >`, is shown in a white box at the top. The derived class, `cl_nitrosz::EvGoalWaypointReached< AsyncCB, Orthogonal >`, is shown in a grey box at the bottom. A blue arrow with an open triangular head points from the derived class to the base class, indicating that the derived class inherits from the base class.
