

smacc2::introspection
::SmaccEventInfo::getSourceName

```
graph LR; A["smacc2::introspection  
::SmaccEventInfo::getSourceName"] --> B["smacc2::introspection  
::demangleSymbol"]
```

A diagram showing a call from the `getSourceName` method of `smacc2::introspection::SmaccEventInfo` to the `demangleSymbol` method of `smacc2::introspection`. The source box is shaded gray and the target box is white. A blue arrow points from the source to the target.
