The diagram illustrates an inheritance relationship. A blue arrow with an open triangular head points from the derived class box to the base class box. The base class box is white with a black border and contains the text 'boost::statechart::event< EvWaypoint203< TSource, TOrthogonal > >'. It is divided into three horizontal sections by thin black lines. The derived class box is gray with a black border and contains the text 'cl_move_base_z::EvWaypoint203< TSource, TOrthogonal >' and '+ waypointIndex'. It is divided into three horizontal sections by thin black lines.
