

```
sm_dance_bot_strikes  
_back::StEventCountDown  
::staticConfigure
```

```
graph LR; A["sm_dance_bot_strikes  
_back::StEventCountDown  
::staticConfigure"] --> B["smacc2::SmaccState  
< StEventCountDown,  
MsDanceBotRunMode >  
::static_createStateReactor"]
```

A diagram showing a dependency. On the left, a gray box contains the text 'sm_dance_bot_strikes', '_back::StEventCountDown', and '::staticConfigure'. A blue arrow points from this box to a white box on the right. The white box contains the text 'smacc2::SmaccState', '< StEventCountDown,', 'MsDanceBotRunMode >', and '::static_createStateReactor'.

```
smacc2::SmaccState  
< StEventCountDown,  
MsDanceBotRunMode >  
::static_createStateReactor
```
